ADVANTAGES OF WORKING WITH TARGETCAST/STOIK

INTEGRATION: Combines thumbnail browser, viewer, full feature photo editor, and video editor.

ONE SUPPLIER: Imagic is made completely from our own libraries and code, no third party modules used. This means that fast and deep customization to suit your needs can be done without incurring the burden of additional component suppliers.

CUSTOMIZATION: Customizable to OEM requirements.

BRANDING: Easily rebranded to support your brand identity.

FUNCTIONALITY: Extensive palette of state-of-the-art image enhancement tools.

FILE FORMAT SUPPORT: Custom photo and video formats such as RAW.

QUALITY: Imagic has passed strict quality assurance standards at Samsung for bundling with DigiMax cameras.

UNIQUE LICENCING TERMS: Competitive licensing terms available.

LANGUAGE SUPPORT: TargetCast and Stoik have extensive experience in software localization. Currently available immediately in:

- Japanese
- Simplified and Traditional Chinese,
- Korean
- Russian
- German, French, Spanish
